Accelerate productivity and focus on more strategic work.

Automate at scale

Efficiently scale automation across your organization anytime, anywhere.

Securely integrate automation

Seamlessly integrate automation at every level more securely.

Intelligent automation

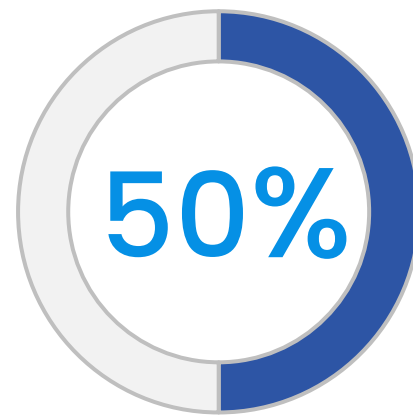

Use technology that scales to your evolving needs with the power of AI.

The Total Economic Impact™ Of Microsoft Power Platform Premium Capabilities, a commissioned study conducted by Forrester Consulting, 2022

Their potential is limitless. Their time is not.

Unlock human potential by automate repetitive, mundane tasks to free up time so your team can focus on what matters most.

50% of work activities globally have the potential to be automated using current technology.

[Harnessing automation for a future that works by McKinsey Global Institute](#)

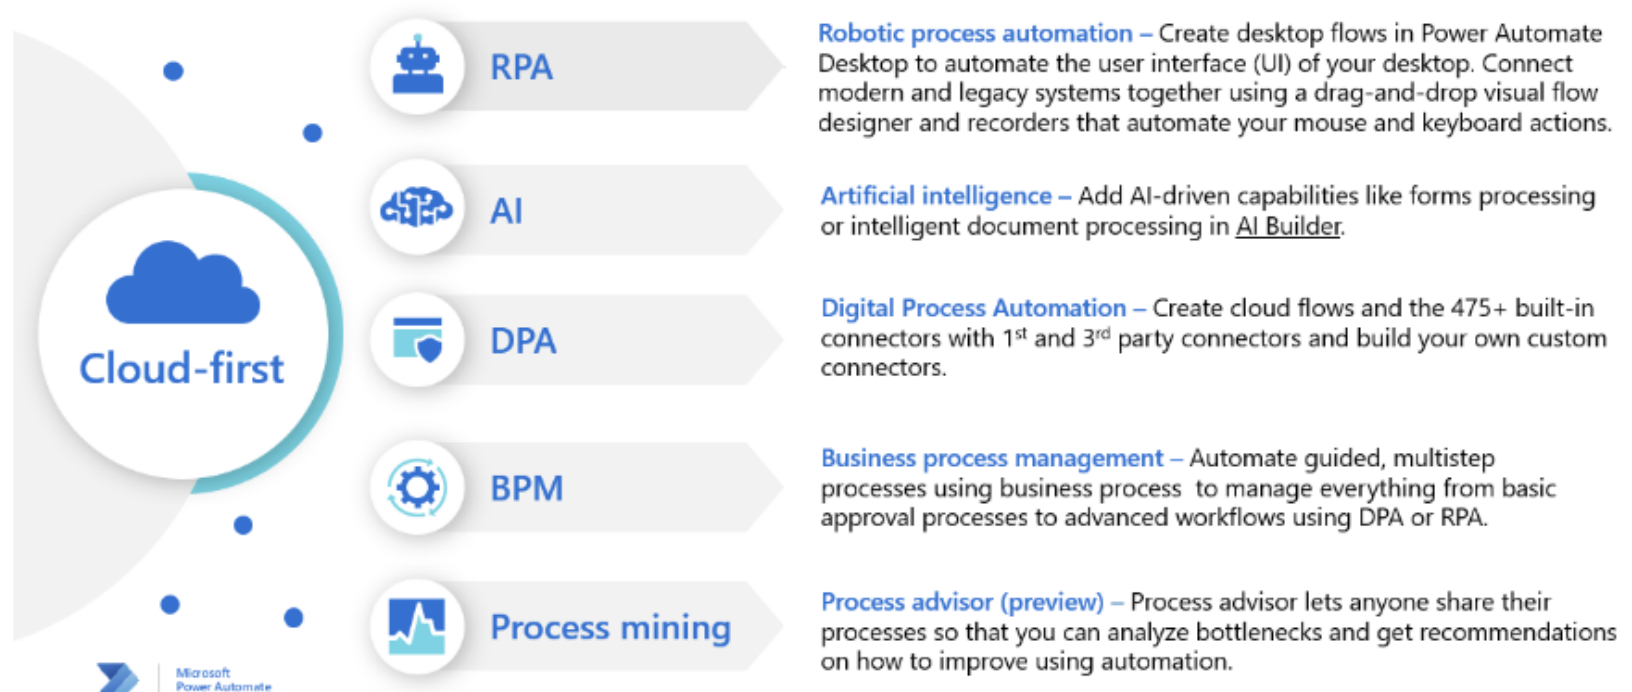

We're leaning into Microsoft Power Automate to streamline processes and help our engineers focus on higher-value work. We now get more value from our team, and they derive more value from their work. It's a win-win.

– Senior Director of Technology

With Microsoft Power Platform, Automation is not an island and works as one intelligent automation platform.

Power Automate as one intelligent automation platform
